

**BET EnviroCare Group** is a comprehensive environmental solutions provider dedicated to pollution diagnosis and sustainable practices. Our team of experienced engineers and applied science researchers offers advanced technologies, products, and services for environmental quality testing, water purification, rainwater conservation, wastewater treatment, solid waste management, renewable energy generation, design consultancy services, and more.

**Mission:**

Our mission is to provide effective and economical solutions for integrated pollution control and renewable environmental management. BET EnviroCare aims to lead the industry while promoting sustainability and resource recycling.

**Values:**

Our values include customer focus, creativity, enthusiasm, a committed team with honesty, and integrity. Through our activities in social biotechnology, BET EnviroCare is dedicated to making a positive impact on the community and the environment.

**Divisions:**

**1. BET LAB**

Specializing in Quality Testing and Diagnosis of Environmental and Genomic quality parameters that control Health and wellness.

**2. BET Research Institute of Environment & Public Health (BRIEPH)**

Focusing on Education, Research, Product Development, and Govt. recognized Training programs in applied biological sciences.

**3. Bio Environ Tech**

Providing complete Pollution-Free solutions for residences in water, waste, renewable energy, and environmental management.

**4. BET EnviroCare LLP**

Providing complete Pollution-Free solutions for firms/companies/communities in water, waste, and sustainable environmental management.

**>About Us:** BET LAB is a government-approved, MSME, and ISO Certified Environmental Testing Laboratory. Specializing in precise sample testing and diagnosis of various environmental components, including water, wastewater, food, soil, air, sound, and genome. Our services aid informed decision-making and effective environmental management, endorsed by the Kerala State Pollution Control Board.

**Approved Laboratory by Kerala State Pollution Control Board, since last 9 years.**

**Motto:** Empowering Environmental Excellence

**Our Role:** We specialize in Quality Testing and Diagnosis of Environmental and Genomic quality parameters that directly influence Health and Wellness.

**Our Audience:** Residential and commercial clients & Business Organizations.

**Our Expertise:** Sample testing, diagnosis, research, and training across environmental elements.

**Vision:** Unveiling a Sustainable World Through Scientific Excellence.

## 👉 BET Research Institute of Environment & Public Health (BRIEPH)

*Bridging 'One Health' Principles with Public Health Excellence*

### 🌿 About BRIEPH:

BRIEPH is a leading institute engaged in studies, research, and development, focusing on the intricate relationship between public health and the environment. Our multifaceted role encompasses education, research, product development, project consultancy, and government-accredited training activities. We are crafting strategies to uplift environmental quality and foster sustainable practices.

### 🎯 Our Audience:

University departments, colleges, technical institutions, students in applied sciences, and food-based firms.

🚀 **Motto:** Accelerate your Career & Growth through Applied Science

🔍 **Role:** Education, Research, Product Development, and Government-recognized Training programs.

### 📘 Our Services:

#### 1. Education:

- Equip students with skills to address health and environmental challenges.

#### 2. Research & Product Development:

- Conduct groundbreaking projects deepening our understanding of public health and the environment.

#### 3. Business Consultancy & Contract Research:

- Enhance food safety with Design Consultancy for Food Processing plants for healthier, safer food supply.

#### 4. Training Programs:
